MONTANA PREVAILING WAGE RATES:

Heavy and Highway Construction

Heavy Construction 1

Highway Construction 13

MONTANA PREVAILING WAGE REQUIREMENTS

Heavy and Highway Construction

Rates Effective August 1, 2002

The Commissioner of the Department of Labor and Industry, in accordance with Sections 18-2-401 and 18-2-402 of the Montana Code Annotated, has determined the standard prevailing rate of wages for the occupations listed in this publication.

The wages specified herein control the prevailing rate of wages for the purposes of 18-2-401, et seq., Montana Code Annotated. It is required that each employer pay, as a minimum, the rate of wages, including fringe benefits and zone pay applicable for the work being performed, as provided in the attached wage determinations.

All Montana Prevailing Wage Rates are available on the Internet at <http://rad.dli.state.mt.us/pw/> or by contacting the Research and Analysis Bureau at (800) 541-3904 or TDD (406) 444-0532.

In addition, this publication provides general information concerning compliance with Montana's Prevailing Wage Law and payment of prevailing wages. For detailed compliance information relating to public works projects and payment of prevailing wage rates, please consult the Regulations on the Internet at <http://erd.dli.state.mt.us/LaborStandards/LShome.htm>, or contact the Labor Standards Bureau at (406) 444-5600 or TDD (406) 444-5549.

WENDY KEATING
Commissioner
Department of Labor and Industry
State of Montana

A. Date of Publication: August 1, 2002

B. Definition of Heavy/Highway Construction

For the purposes of Prevailing Wage, the Commissioner of Labor and Industry has determined that the rates for "heavy and highway" occupations are those rates that pertain to projects involved in construction fields other than building and residential. Federal Davis-Bacon wage rates as published in U.S. Department of Labor General Wage Decision No. MT020001 Modification No. 1 and MT020002 Modification No. 1 have been adopted by the Montana Department of Labor and Industry for use in heavy and highway construction projects and are included in this publication. These rates apply statewide or as shown in General Wage Decision No. MT020001 Modification No. 1 and MT020002 Modification No. 1.

C. Definition of Public Works Projects

Contracts entered into for construction services (heavy, highway and building) or nonconstruction services by the state, county, municipality, school district, or political subdivision in which the total cost of the contract is \$25,000 or more involving public funds.

D. Prevailing Wage Schedule

This publication covers only heavy and highway construction industries and rates in the specific localities mentioned herein. These rates will remain in effect until superseded by a more current publication. Current prevailing wage rate schedules for Building Construction and Nonconstruction Services occupations can be found on the Internet at: <http://rad.dli.state.mt.us/pw/> or by contacting the Research and Analysis Bureau at (800) 541-3904 or TDD (406) 444-0532.

E. Fringe Benefits

Section 18-2-412 of the Montana Code Annotated states that:

"(1)... a contractor or subcontractor may: (a) pay the amount of fringe benefits and the basic hourly rate of pay that is part of the

standard prevailing rate of wages directly to the worker or employee in cash;

(b) make an irrevocable contribution to a trustee or a third person pursuant to a fringe benefit fund, plan, or program that meets the requirements of the Employee Retirement Income Security Act of 1974 or that is a bona fide program approved by the United States department of labor; or

(c) make payments using any combination of methods set forth in subsections (1)(a) and (1)(b) so that the aggregate of payments and contributions is not less than the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions that meet the requirements of the Employee Retirement Income Security Act of 1974, travel, or other bona fide programs approved by the United States department of labor, that is applicable to the district for the particular type of work being performed.

(2) The fringe benefit fund, plan, or program described in subsection (1)(b) must provide benefits to workers or employees for health care, pensions on retirement or death, life insurance, disability and sickness insurance, or bona fide programs that meet the requirements of the Employee Retirement Income Security Act of 1974 or that are approved by the United States department of labor."

Employers are obligated to pay the wage rates and fringes as listed in the booklet, including the zone hourly rate when applicable. For heavy and highway construction occupations, the vacation benefit amount is **not** included in the prevailing wage rate, unless stated otherwise.

Fringe benefits are paid for all hours worked (straight time and overtime hours). However, fringe benefits are not to be considered a part of the hourly rate of pay for calculating overtime, unless there is a collectively bargained agreement in effect that specifies otherwise.

F. Apprentices

Wage rates for apprentices registered in approved federal or state apprenticeship programs are contained in those programs. However, apprentices not registered in approved federal or state apprenticeship programs will be paid the prevailing wage rate when working on a public works contract.

G. Posting Notice of Prevailing Wages

Section 18-2-406, Montana Code Annotated, provides that contractors, subcontractors, and employers who are performing work or providing services under public works contracts as provided in this part shall post in a prominent and accessible site on the project or work area, not later than the first day of work, a legible statement of all wages to be paid to the employees on such site or work area.

H. Employment Preference

Section 18-2-403, Montana Code Annotated requires contractors to give preference to the employment of bona fide Montana residents in the performance of work on public works contracts.

I. Rates to Use for Projects

Rates to be used on a public works project are those that are in effect at the time the project and bid specifications are advertised.
